

Nelson Hand Dispenser

“From top to bottom we have you covered”

The Nelson Hand Dispenser is changing the way freight is being handled in the packing and shipping industry. Designed to save time, money and your back!

Key Features

- Accommodates various shaped pallets.
- Lightweight, aluminum, hand held dispenser.
- Modular design allows for quick cylinder exchange.
- Keeps the labour in a natural forward walking position reducing back and work-related injuries.
- Comfortable to hold and operate on any size load.
- Self oiling material provides smooth and consistent action.
- Tension control for preferred stretch.
- Brake system ensures a tighter wrap and less wasted film.
